## **WindGuard North America Expands Operations in the U.S.**

### **Newly Founded Local Team for Wind Resource and Site Assessments to Complement Existing Range of Services**

**Alexandria (VA), 2017-05-12:** WindGuard North America has established a new expert team for wind resource and site assessments at its office in Alexandria, Virginia. The subsidiary of internationally renowned wind energy consultant Deutsche WindGuard has been in charge of the group's operations in the United States since 2010.

"After setting up a team for power curve measurement in late 2016, we are now happy to add wind resource and site assessments to the list of service that we can offer with experts on site in the States", says Gerhard Gerdes, CEO of WindGuard North America.

"We listened to our American client's requests and are currently in the process of establishing local teams for some of our more sophisticated services", adds Axel Albers, CTO of WindGuard North America, "This makes it so much easier and more efficient to meet our customers' needs and provide them with the high quality we expect from all of our services and that we take pride in."

*Publication and reprinting free of charge; it is politely requested that a specimen copy be sent to WindGuard North America, Inc. For further information, please see: [www.windguard-northamerica.com](http://www.windguard-northamerica.com) or [www.windguard.com](http://www.windguard.com).*

### **WindGuard North America – The Wind Professionals**

WindGuard North America, Inc. is the U.S. subsidiary of Germany-based wind energy consultant Deutsche WindGuard GmbH. In today's complex energy market, WindGuard is committed to providing extensive scientific, technical, and operational services, which are unbiased and manufacturer-independent. WindGuard is one of the world's leading service providers to renewable energy enterprises, utilities, investors and the public authorities which define generation facilities as power stations. We are a holistic network with a scientific-core leadership team and 150 experienced specialists, and the WindGuard Universe is ever-expanding – a fact which justifies our international renown and status as a competent leader of projects of all magnitudes throughout the world. Onshore. Offshore. Worldwide.
